ZyXel ZyAIR G-2000 with 4-port switch and WAN port

Featuring a total of four LAN ports, this ZyXEL wireless router also supports wired connections to a maximum of four work stations, providing a more secure connection for sensitive data transmission. With a maximum wireless speed of 54 Mbps, this ZyXEL G-2000 has all the speed that any computer user would need. This four-port router features WEP, WPA, and WPA2 wireless encryption to help prevent hackers from getting hold of data as it travels through the wireless signal. With its built-in SPI firewall, this ZyXEL wireless router prevents hackers from gaining access and creating havoc, like DoS attacks. Measuring in at 1.41 x 8.38 x 6.57 inches, this ZyXEL G-2000 fits nicely on a desk. Its lightweight, 1.03 lb body allows it to hang on a wall without the worry of it falling. This four-port router also features upgradable firmware, which helps keep this router current for many years. A wireless router is a great addition to any home or small office network, but a quality router, like this ZyXEL wireless router, is necessary in order to achieve the best results.
