Beautiful Troy electric bakfiets, originally purchased in April 2017, so still very young and still as good as new (only less than 570 km in it).Â

We are the second owners of it, the first one sold it because she only bought it to solve a particular transportation issue that lasted for a few months. After buying it from her we haven't used it as much as we expected, only rode with it for a few occasions, especially that in the meantime our older kid started to bike on his own bike. It is a waste for such a good bike to just park in the garden, so we decided to sell it to someone who could give it more attention and a more active life!

Characteristics:

3 wheels7 gearsmotor support in 9 levelswalk assist10 Ah 370 Wh accu (still strong, always kept inside the house)

The bakfiets includes:

Raincover with windows for the boxÂ 2 banks with 4 safety beltPillows for the banks, unisex color (hardly used, we bought it new from Yokids for appr. 40 eurs and still as good as new)Wheel lock with chainOriginal papers of order and manual (it is possible to make an insurance on the bakfiets)Charger for the accu

The bakfiets was stored outside but always fully covered to protect it. The black cover was also bought by us new, it is not part of the package but if the new owner wants to have it, we can discuss it.

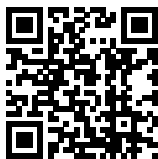

The upper corner of the display on the pictures is not damaged or scratched, only the protection foil is still on it.
