

Getac PS336 Premium USB RS232 BT WLAN 3G HSPA alfa GPS RFID (1.084,56 EUR)

Locatie **Noord-Holland, Amsterdam**
<https://www.advertentienx.nl/x-805774-z>

Getac PS336 Premium, USB, RS232, BT, WLAN, 3G (HSPA+), alfa, GPS, RFID, kabel (USB), geel (DE) (P1A6BWD4YBXS)

industrial PDA, fully rugged, keypad (alphanumeric), GPS, touch screen, RFID (reader), Cam (5MP, auto-focus), brightness: 600cd, 8.9 cm (3.5"), USB, RS232, Bluetooth, Wi-Fi (802.11b/g/n), audio, GSM-Voice, 3G (HSPA+), Micro SD-Slot (max. 32GB), 480x640 pixels, type, TI AM3715, 1GHz, RAM: 512 MB, Flash: 8GB, Win Embedded Handheld 6.5 (DEUTSCH), IP68, MIL-STD 810G, incl.: cable (USB), power supply unit, power cable (EU, UK), battery, colour: yellow

Getac PS336
 The tank among handhelds

Extremely robust handheld terminal with IP68 certification
 Particularly bright touch display; auto focus digital camera
 Battery life of up to 12 hours and Lifesupport technology
 Optional FlexiConn, Bluetooth module with up to a 600 m radius
 Wi-Fi, GPS, E-compass, altimeter, G-sensor
 Hard cover fast core: with its 1 GHz processor and 512 MB RAM, the handheld PS336 from Getac is

always modern. Its housing repels even extremely rough conditions. It is both MIL-STD-810G and IP68 certified. It has the best performance in dust and water, up to 1 meter, and impacts, 3 times with 1 kg weight. It has a battery life of up to 12 hours, thanks to its integrated Lifesupport technology, which keeps it operational without data loss. Due to its particularly bright touch display (600 nits) you are ensured excellent reading conditions in bright sunshine as well as underground. With a screen size of 3.5" (8.9 cm) it offers plenty of space for straightforward operation with touch pen or finger, as well as with gloves, of course.

With an impressive battery life up to 12 hours, the PS336 is a reliable partner on the street, at construction sites or the premises of production. If things take longer no problem: simply exchange the battery thanks to its integrated Lifesupport technology, which keeps it operational without data loss. Due to its particularly bright touch display (600 nits) you are ensured excellent reading conditions in bright sunshine as well as underground. With a screen size of 3.5" (8.9 cm) it offers plenty of space for straightforward operation with touch pen or finger, as well as with gloves, of course.

The handheld contains all the tools and communication channels that you need: 802.11 b/g/n Wi-Fi, E-compass, altimeter, G-sensor and GPS with SiRFstar IV module for extremely precise positioning. Real-time data transfer via the optional 3.5 G WWAN (HSDPA/EDGE/GPRS/GSM) expands this functionality and ensures the highest degree of flexibility in every situation.

The specially developed FlexiConn technology allows you to use various hardware modules: a 1D barcode reader, a smartcard reader, as well as a Bluetooth module. The optional long range Bluetooth 2.1 Class 1 module has a radius of up to 600 m, for management via stations and facilities without any additional equipment. Add to it an auto focus camera with 5 megapixels and flash, as well as seven programmable function keys, to speed up and simplify your work. With a standard 3-year manufacturer warranty, you are on the safe side with this investment.

The terminal comes equipped with Windows Embedded Handheld 6.5 Professional or Embedded Handheld 6.5 Classic, which guarantees high compatibility and simple integration. All interfaces are included on the PS336: with the serial RS232 port, as well as USB OTG, the PS336 offers high compatibility and flexible connection possibilities in the most diverse areas of business use.

The IP68-certified PS336 can be used in a wide range of temperatures (-30 to +60 °C), is waterproof, impact-proof, and guarantees field staff an effective work method, even under the most difficult of environments. Various accessories further expand the spectrum of applications in production, transport and logistics many times over. Just like all the other Getac rugged devices, the mobile data collection terminals are designed for a variety of critical working conditions. Upon request, you can receive the PS336 with an optional full ATEX certification a European guideline for absolutely safe explosion protection.

Rugged Features

MIL-STD-810G and IP68 certified Vibration resistant Drop resistant (26 drops from 6ft) Tumbling resistant (1,000 cycles; 1.6 ft) Optional EU explosive atmosphere ATEX certified vii

Environmental Specifications

Temperature: - Operating: -30°C to 60°C - Storage: -40°C to 70°C Humidity: - 95% RH , non-condensing

i Supported SBAS: WASS, EGNOS, MSAS, GAGAN.

ii Precision and reliability may be subject to anomalies due to multipath, obstructions, satellite geometry, and atmospheric conditions.

iii For selected configuration only.

vi Battery performance will vary with software applications, wireless settings, power management settings, LCD brightness, customized modules and environmental conditions. Battery life and charge cycles vary by use and settings.

v The system will stay operating (within 120 seconds in standby mode) when user swaps the battery.

vi Weight varies from configurations and optional accessories.

vii The ATEX configuration, PS336-Ex, is certified for use in hazardous location zone 2.

[All specifications are subject to change without notice.]

EXPAND YOUR REACH IN THE FIELD.

This field-ready workhorse was built for power, functionality and ruggedness. Featuring a large 3.5 inch display with a pressure sensitive touchscreen, advanced GPS, an alpha-numeric keyboard, plenty of power to run your apps and the highest rugged standards available in the industry, the PS336 rugged handheld is compact enough to operate in one hand.

Comprehensively Connected.

The PS336 delivers 3.5G WWAN with both data and voice capabilities, WiFi and Bluetooth 2.1 Class 2; providing faster and more reliable speeds for better data delivery in real-time.

Windows Mobile, Always With You.

The PS336 comes with Windows Embedded Handheld 6.5, providing you with a wider range of uses and applications across utility and field service sectors.

GIS Ready.

The PS336 rugged handheld is built with an e-compass, altimeter, integrated GPS and a G-sensor accelerometer that can measure speed, vibration and rotation. These features open the door to countless application possibilities, making it ideal for GIS surveying and other GPS/mapping-based applications.

Built to Survive.

In addition to IP68 certification, which protects against dust and allows the unit to be water-proof up to one meter, the PS336 is independently certified to MIL-STD-810G certification, and can operate in temperatures from -30 Å°C to 60 Å°C.

Waterproof.

The IP68 rated PS336 has a sealed design for waterproof protection to one meter.

Drop, Vibration and Shock.

The PS336 is designed to withstand repeated drops, vibration & shock.

3.5 Inch Sunlight Readable Display.

The PS336 features a 3.5 inch display specifically designed for viewing in direct sunlight. The display uses a special multi-layered touch sensor that registers pressure, allowing you to keep your gloves on - perfect for using in cold or hazardous environments.

Embedded RFID reader.

A high-frequency RFID reader scans electronic data from tags and can capture positioning data in

addition to tracking purposes. This data-capture capability is a powerful tool for field professionals who need to handle logistics management and asset tracking with greater efficiency.

ATEX Certified.

We offer the option for ATEX Zone 2/22 certification for use in potentially explosive atmospheres. Insulating mechanical material and exceptional circuit designs are applied to ensure the PS336 is ignition-proof and intrinsically safe.

5 Megapixel Camera.

The PS336 features a built-in 5-megapixel camera with autofocus and a LED flash - perfect for GIS mapping.

Plenty of Storage.

Every PS336 comes standard with 8GB of internal storage and can be upgraded to 40GB simply by adding a 32GB SDHC card. ¹

Industry's Best 3-Year Warranty.

Accidents can take your equipment out of service when you least expect it, especially in a rugged environment, which can cause costly equipment downtime.

That is why Getac has introduced accidental damage as standard under our new Bumper-to-Bumper warranty, to help minimize your enterprise IT costs.

Bumper-to-Bumper is your hassle-free guarantee, supported by the best Pack & Collect logistics service in Europe, and rapid repair and return by Getacs in-house experts.

That means you can depend on us to have your unit back in service within days.

Standard. 3 years Bumper-to-Bumper

1) SDHC memory cards sold separately.

2) For full details of the warranty protection, see the terms and conditions.
