

## Garageboxen incl. kantoorruimte

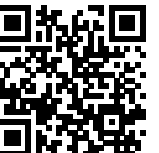

Locatie **Limburg, Heerlen**  
<https://www.advertentiax.nl/x-806772-z>

Te huur aangeboden:  
 Groot werkkantoor, separaat kantoorruimte met keukentje en toilet, 7 garageboxen (waarvan 2 verhoogd), een autowasplaats met olie-en vuilafscheider (kan ook als garagebox gebruikt worden).

5 garageboxen zijn onderling open (kunnen dus als 1 garagebox gebruikt worden) en 2 garageboxen zijn onderling open (kunnen dus als 1 garagebox gebruikt worden).

Het liefst verhuren wij alles samen.  
 Aparte verhuur van verschillende ruimtes is.

|                                                                                                                                                                                                                                         |                                                                                                                                                                                                                                          |                                                                                                                                                                                                                                          |                                                                                                                                                                                                                                          |                                                                                                                                                                                                                                           |                                                                                                                                                                                                                                            |                                                                                                                                                                                                                                            |                                                                                                                                                                                                                                            |                                                                                                                                                                                                                                            |                                                                                                                                                                                                                                            |
