

# Senior Production Engineer Renovations bij Royal IHC

Locatie **Noord-Holland, Amsterdam**  
<https://www.advertentieX.nl/x-808090-z>

Royal IHC is seeking a Senior Production Engineer Renovations! Do you have experience with making calculations, project management, engineering and purchasing? Do you want to work in an innovative and international team in the offshore business? If so, read on to find out more and apply for the Senior Production Engineer Renovations.

## Your job

The renovations department manages bigger ship repairs and conversions both nationally and internationally. The department is set up as a project organisation in which the cooperation of different disciplines such as calculation, project management, engineering and purchasing is important. We are looking for an experienced Senior Production Engineer Renovations with a hands-on mentality and pragmatic approach to join the department. As Senior Production Engineer Renovations your duties will include the following: receiving project information and checking for completeness and accuracy reporting any missing information or issues completing data where necessary and making (production) work drawings, material states and determining purchase specifications defining production methods and procedures in close cooperation with engineering and field service advisors answering production-related questions from service engineers and stakeholders reporting on the progress of work and deviations of delivery time, budget and quality contributing ideas alongside management and the department in order to create solutions to prevent problems, and improve methods and processes creating project planning including progress reports.

## Your profile

To be eligible for the role of Senior Production Engineer Renovations, you must have the following: a minimum of 5 years of experience in a similar role, preferably in the mechanical engineering sector, with the ability to make technical calculations and drawings and to manage projects. You should have a good knowledge of the production and logistics processes, and the ability to define a clear division between the application of the impact of a change on other processes within the work area and the ability to advise colleagues and follow up on any questions they have. You must have excellent knowledge of Microsoft Word and Excel, in addition to ERP and PDM packages. You should have excellent communication skills in English, both written and verbal, be stress-resistant and pragmatic, have a good personality, excellent planning and organisational skills, a flexible approach to work, and the ability to take initiative.

## Our offer

Royal IHC offers you as Senior Production Engineer Renovations a challenging role at a company in which technology is placed at the forefront of today's possibilities. You will work for an organisation that is

developing at full speed, where your qualities and talents are valued and where you have every opportunity to develop further. Our terms of employment may be described as excellent, and include reimbursement for your travel costs, an annual profit share, a highly beneficial pension scheme, access to appropriate training courses, and 40 days of annual leave.

#### Our organisation

As Senior Production Engineer Renovations, you will work at IHC Services, based in Kinderdijk. IHC Services is the global market leader in the construction of tools at sea and an important player in the field of complex custom-built offshore and dredging ships and equipment. IHC Services core mission is to be the preferred supplier for all services relating to the offshore, dredging and mining industry. From the head office in The Netherlands and with employees working from sites and offices on a global basis, were able to ensure a local presence and support for customers on every continent. We offer 24/7 Service worldwide and services typically include Repair, Rental, Renovation, Condition Based Services, Feasibility studies, Life Cycle Engineering, Parts & Logistics and Training & Consultancy. With our commitment to technological innovation, in which sustainability and safety are key, we strive to continuously meet the specific needs of each customer in a rapidly evolving world.

IHC Services is part of Royal IHC (IHC), the global market leader in the construction of specialized ships for wet mining and dredging activities, and an important player in the field of complex custom-built offshore ships. However, we do not stop there. For every ship, we also develop advanced equipment that is integrated seamlessly. In addition, we offer life-cycle support to our customers, which is available worldwide and for the lifetime of our products. If you look at our customer base, you will find prominent dredging companies, oil and gas conglomerates, offshore contractors and national governments. With offices worldwide, IHC has an international orientation. Today we have 3,000 colleagues working in various locations across The Netherlands and overseas.
