Macbook Pro Retina 15" i7 2,3 GHz Quad Core 16GB Ram 256GB SSD HDD Met Veel Extra's

Wegens het niet gebruiken onze als nieuwe Macbook Pro aangeboden.  
 Wij hadden deze Macbook Pro gekocht als 2e Macbook maar  
 achteraf is dit niet nodig geweest.  
 Dat hij vrijwel niet gebruikt is is te zien aan de accu die heeft  
 maar 2 laadcycli gehad.

Wij zijn erg zuinig op onze spullen en is dan ook in nieuwstaat.  
 De Macbook Pro is vrij van krasjes, beschadigingen of andere  
 sporen van gebruik en dit geldt ook voor het Retina scherm.

Deze Macbook Pro Retina is dankzij het 16GB Ram de i7 Quad  
 Core processor en de SSD harddisk razendsnel.

Zeer geschikt voor zwaardere taken zoals foto en videobewerking,  
 muziek maken/producen of andere grafische doeleinden.

Dankzij het mooie grote Retina display een genot om op te werken  
 en komen foto's tot leven.

|                                                                                                                                                                                                                                                                |                                                                                                                                                                                                                                                                 |                                                                                                                                                                                                                                                                 |                                                                                                                                                                                                                                                                 |                                                                                                                                                                                                                                                                  |                                                                                                                                                                                                                                                                   |                                                                                                                                                                                                                                                                   |                                                                                                                                                                                                                                                                   |                                                                                                                                                                                                                                                                   |                                                                                                                                                                                                                                                                   |
