V-LITE RIB The lightest RIBs around! African Cats have some RIBS available on stock.

We have been sailing the waters of the world for many years. We discovered that dinglys are usually far too heavy to handle in any comfortable way. The dinghys that are easy to handle dont have a rigid bottom and therefore manoeuver worse, while the existing RIBs manoeuver well, but are too heavy to lift on board by manpower.

By building our RIBs with epoxy vacuum infusion, we created RIBs that are:

Easy to handle

Easy to manoeuver
