Ion Vertex Waist Harness
KEY FEATURES
High Performance Pre-Shape: Inside 3D EVA Shape lock into your waist and prevent friction. Combined with the comfy Hyper Foam for ergonomic fit without sucking water.

3D Zone Shape: Partially 3D pre-shaped harness body for minimal movement and perfect fit.
Line Concept
 The VERTEX is a favourite amongst our team riders and represents the perfect choice for more experienced kitesurfers. Offering outstanding support, it boasts a refined design that features the new 3D EVA foam shape (Archbar) as well as the new, super soft Hyperfoam, making it very lightweight. The ultimate wave-shredding companion ensures more freedom of movement than ever before due to its slimmer outline and extended soft foam edge.
C-Bar
 With the C-bar, ION introduces a new technology for spreaderbars. Two features mark the difference: the new tension lever system tightens the harness without having to change the buckle settings, therefore guaranteeing a perfect fit. This new system provides a symmetric force spread while riding and is therefore very comfortable. The C-Bar is made out of fiber re-inforced injection material instead of metal, which makes it ultra lightweight.
