

# Product Group Quality Specialist Foods Europe

Locatie **Noord-Holland, Amsterdam**  
<https://www.advertentieX.nl/x-856555-z>

## Bedrijfsomschrijving

Unilever is looking for someone in this Quality role.  
 They're looking for someone who is responsible for the end to end quality guarantee within Supply Chain, for the branche quality management change.

The Quality Technologist Foods Europe role works within a category organisation across the region. The Role implements and executes a consumer and customer focussed quality program well balanced with general business objectives (financial/technical). In addition, it supports regional innovation teams and Unilever manufacturing sites to resolve issues and to drive continuous improvement. Focus of the role will be on the support of innovation products in savoury and dressings.

## Functieomschrijving

### Key Responsibilities:

- Ensure active risk management, validation of specifications and agreement of reliable standards / tolerances in projects together with project teams, Marketing, R&D, Sourcing Units, and Marketing Sales Organisations to secure smooth quality implementation of priority projects in the supply chain. Visibility and presence at the Weena is very important.
- Continuously communicate and drive quality improvement programmes with Suppliers e.g. project

Ozone, Sourcing units, and customer representatives as well as continuously strengthening the quality in the Supply Chain. The role is responsible for the end to end quality guarantee within Supply Chain, for the branche quality management change. The role is responsible for the end to end quality guarantee within Supply Chain, for the branche quality management change. The role is responsible for the end to end quality guarantee within Supply Chain, for the branche quality management change.
