You work in a team of people from different nationalities and the language on the floor is English. Salary € 65.000 a year all-in. 25 holidays. Fulltime 38 hours a week. Permanent Placement.

Functieomschrijving

In our factory, the heart of our organisation, we fulfil our customersâ€™™ expectations to focus on continuous improvement and quality, like ISO 9001, BRC and the 5S methodology. The Quality department ensures that our cans fulfil to our customersâ€™™ needs and expectations. As a Quality and Environment Manager you coordinate, supported by the management team and the QC employees, all activities that are needed to reach this goal, including customer service operations in The Netherlands, Germany, Belgium and Norway.

The Quality and Environment Manager monitors the performance of the quality management system and liaises with the staff (in all organizational layers) to ensure that the Quality, Food Safety and Environment system is functioning properly. Where appropriate the Quality and Environment Manager advises the client and provides them with tools and resources to support and coach of staff to achieve quality standards.

Key tasks:

- manage customer requirements
- promoting quality achievement and performance improvement through the organization
- setting Quality Assurance compliance objectives and ensuring that targets are achieved
- assessing suppliers and own company's product specifications
- raise, follow and manage customer and supplier complaints
- greening standards and establishing clearly defined quality methods for staff to apply
