

Triobike cargo s (3.400 EUR)

Locatie **Noord-Holland, Amsterdam**
<https://www.advertentieX.nl/x-859843-z>

TRIOBIKE CARGO S The sports version of the Triobike cargo has a Gates belt-drive that ensures an extremely smooth and comfortable ride. Compared to a conventional bicycle chain, the belt is more silent, cleaner and requires less maintenance. The Triobike cargo S has a lightweight and incredibly strong alloy frame but is even faster than the standard cargo model thanks to some upgraded components â€” Shimano Alfine 11-speed gear group, hydraulic Shimano disc brakes and Schwalbe tyres.

MADE TO CARRY

The Triobike cargo can carry an impressive overall maximum load of up to 230 kg! And puncture-free tyres will give you complete peace of mind as you ride past traffic jams and waiting buses. This cargo bike is a reliable everyday workhorse that makes large loads easier and city cycling more exciting.

AGILE & STRONG

The Triobike cargo has a seamless and lightweight aluminium frame that is incredibly strong with â€” side wingsâ€”™ bent in 3D. The frame is carefully crafted in one piece to be resilient and durable. It also keeps you fast and sharp out on city streets. This carrier bike is built for speed and looks beautiful!

BRAKE LIKE AN F1 CAR

The Triobike cargo is equipped with hydraulic disc brakes, the best available technology directly inherited from the car industry. Even at high speeds and with the front deck fully loaded, applying a small squeeze on the brake levers will get you to a full stop in a short distance.

It's all about the RIGHT choice. The Triobike cargo S offers a wide loading angle of the front. This makes the bike suitable for manoeuvring in tight spaces.

COLOURFUL RIDES FOR COLOURFUL MINDS

Triobike is all about your freedom to choose and express who you are. Our wide selection of colours, styles, features, accessories and customization options will open up a world of possibilities for you to play with. Hood and seat colours never fade thanks to special water resistant, fire tested and 100% UV stable materials.

CHOOSE YOUR ACCESSORIES

The Triobike cargo comes with a list of great accessories such as plywood panels, seats and hoods. Weâ€™ve also created a special two-kids box for families and a super-tough, theft-proof flight case box to keep your precious cargo safe at all times.

SPACE FOR KIDS

With 62 cm of inner width, the Triobike cargo is among the widest 2 wheels cargo bikes on the market, and can easily carry up to two kids. The seats are soft, comfortable and free from harmful chemicals, PVC or heavy metals. They come in a variety of colours like â€˜petrolâ€™™, â€˜cardinalâ€™™ or â€˜grassâ€™™ and look great. Fearing those rainy days? donâ€™t worry: we also have a complete selection of hoods for both one and two kids set up. Great rides are waiting for you and your kids no matter the weather!

FLIGHT CASE BOX

When you run a small business, time is money. Attach the super secure flight case box to your Triobike cargo and speed through the city delivering on time, every time. The flight case box is large, lightweight, waterproof and strong, ensuring your contents are 100% safe. It also comes with a secure lock for complete peace of mind. Traffic jams are so yesterday.

RIDING ON RAILS

Thanks to the one-piece steering rod, the Triobike cargo is capable of delivering a great riding experience, with a very precise feeling of direction. Together with the optional damper, the steering becomes smoother and easier to ride, even with a fully loaded bike in high speed on a bumpy road.

A SILENT RIDE

The Triobike cargo can be equipped with Gates Carbon Drive and the Enviolo CA gearless continuously variable transmission. Thanks to the belt and the internal gear hub, this combination is almost maintenance free and gives you an even more silent and smooth riding experience. Relax and enjoy the birds singing!
