The Yoga Book is a true all-rounder. This 2-in-1 laptop can also be used as a tablet and has various special functions. In addition to working as on a laptop, you can also make notes and drawings and digitize them directly. Design, illustrate and sketch with the Real Pen stylus on the Create Pad and the drawings are stored digitally. In addition, the Yoga Book also takes notes when you place a notebook on the Create Pad and write on it. With a pressure sensitivity of 2048 levels, the Real Pen captures every pen stroke. The 10.1-inch Full HD screen rotates 360 degrees thanks to the watchband hinge, which means that different user positions are possible. For example, fold the Yoga Book in half and you have a tablet on which you can surf and swipe. Similarly, the Create Pad can be switched to the HALO keyboard at the touch of a button and you continue processing texts. This keyboard is easy to type thanks to the light vibration with every touch. The Yoga Book runs on Android 6.0 and contains an Intel Atom quad-core processor with a speed of up to 2.4 GHz. With this he processes all your assignments smoothly and smoothly. He also has an 8-megapixel camera and an elegant design thanks to the metal chassis. Finally, the Yoga Book is ultra-thin and weighs only 690 grams. A product that ensures that you are productive on the road! Real Pen Stylus and notepad are.
