

# Volkswagen Racing Golf 6R Cold Air Intake

Locatie **Noord-Holland, Amsterdam**  
<https://www.advertentiax.nl/x-886527-z>

Vanaf nu leverbaar zijn alle Volkswagen Racing producten!

Het Volkswagen Racing Golf 6 Cold Air Intake systeem is speciaal ontwikkeld voor de race auto's van Volkswagen Racing. Bewezen 30pk vermogenswinst door een combinatie van verse koele lucht aanvoer, naar een filter in een gesloten behuizing om hitte van de motor buiten te houden. Tevens zorgt deze kit voor een snellere spool-up van de turbo tot wel 500rpm.

Bestaande uit:

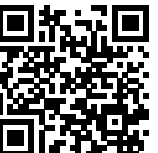

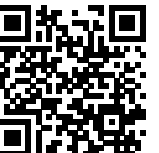

- Nieuwe filter box
- Nieuw 3 laags TriFoam filter voor de beste filtering (wordt ook in de Formule 1 gebruikt)
- Intake funnel voor maximale lucht toevoer
- Buizen, slangen en bevestigings materiaal zoals zichtbaar in de foto's.

VWR partnumber: VWR12G60R

Dit systeem is geschikt voor:

- Volkswagen Golf 6 R
- Volkswagen Scirocco R

|                                                                                                                                                                                                                                        |                                                                                                                                                                                                                                         |                                                                                                                                                                                                                                         |                                                                                                                                                                                                                                         |                                                                                                                                                                                                                                          |                                                                                                                                                                                                                                           |                                                                                                                                                                                                                                           |                                                                                                                                                                                                                                           |                                                                                                                                                                                                                                           |                                                                                                                                                                                                                                           |
