Hereby selling my Gaming monitor by Benq, its a QuadHD (2K) screen with a 144mhz refresh rate and 1ms reaction time. It has a built in aux jack, headset holder en 3 usb ports voor anything you would like whether its charging a phone or connecting speakers. I bought it for use with my Ps4 Pro and the videoquality is amazing i just dont game anymore, It was 550 euros brand new and it still looks brand new aswell. It used to be the official Esports gaming monitor for a long period of time and even supports Freesync at 144mhz It has a VGA Port, hdmi 1.4 and hdmi 2.0 ports and a Displayport. All original cables
