New high-end battery last year. Tires are in great condition. One pannier sticks to open but works fine. full tool kit under the seat. It looks great for a motor for its age. There are zero issues with the motor, it is ready to ride anywhere.

This is the last stage 1150RT with the twin spark. Only 35,000 km on this motor...one of the lowest you'll find in the world. Never used as a commuter - this is mainly long distance miles. You can see from other listings, these motors can go 300,000 km if treated properly. Spend the extra \$1K and get a low miles, well maintained, garaged motor with all the right extras. The Windshield (perfect) and the digital battery tender are almost €500 alone! Selling because I want to get an Adventure motor. No rush, don't offer anything ridiculous, you're just wasting both our time. Happy to keep riding this motor, but will sell if I get
