Laptop was bought mid 2016, in excellent condition. Fantastic display, dedicated GPU and powerful processor makes it optimal as a home media-center, ideal for gaming, video- and photo-editing. With external GPU connected via Thunderbolt 3 port could handle any modern computer game.

Only selling because I have switched to the lighter laptop for business travel.

IMPORTANT! Currently installed single-language Windows 10 Russian edition. If you need English as a system language, you'd need to install it.
