CNET:
 The Thunderbolt-enabled Promise Pegasus R6 offers superb throughput speed and a large amount of storage, and supports multiple RAID configurations. You can also daisy-chain the drive with up to five other Thunderbolt devices without decreasing the throughput.

If you have a Thunderbolt-enabled computer, the Promise Pegasus R6's storage capacity, its features, and especially its performance are worth the hefty investment for those who demand fast external storage.

Gaat weg omdat we in 'de cloud'.
