Price is included BTW
 It is 2014 model made in december 2013 with LED day lights and full option version. New summer tires bought week ago +4 x extra winter tires and 18inch rims. (all "Hankook" label A) Car is like new with few scratches from normal use. Nothing abnormal. Battery is still in good condition - possible to make 35+ km in the city with consumption of 0.0 l/100km during summer. Service is always done after each 20000 km in Mitsubishi service center and service book is included. I want to sell it because I want to buy something more powerfull and faster. 16500 euro is lowest possible.
