Windows 10 Home

A highly improved but ever familiar operating system for home use

As Microsoft assures us, Windows 10 Home makes things happen! The system builds upon its predecessors through its swift, practical, and extremely elegant new features, and through the unprecedented amount of built-in security features that will keep you at peace.

Multi-tasking

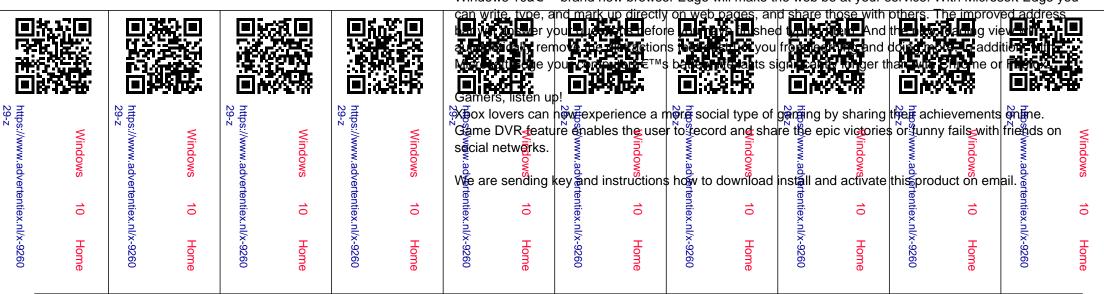

The enhancements in Snap will not let you snap while multitasking! Make all the apps you need visible at once by dragging them as you wish on your screen. If some space is left, Windows will suggest how to fill the gaps with other apps you have started. In addition, you can manage your work by adding and deleting tasks in Task View. This also enables you to see all your active apps, files, and docs easily in one window.

Continuum

Continuum is the new feature through which Windows is able to detect the type of hardware you are using and choose an appropriate interface for your device. Thus your active tabs will scale smoothly to any display you choose to work with.

Stay edgy with Microsoft Edge

Windows 10' brand new browser Edge will make the web be at your service! With Microsoft Edge you
