

Perception Method Junior  
Perception Method in good condition: really great kayak model for juniors or small adults up to 70kg / 11 stone. It's a fun, manoeuvrable but stable playboat and river runner, good for beginners through to white water. The boat has had fairly light use: has a few scratches but none of large depth or significance. It has been well cared for and always kept inside. Comes with adjustable back support and pedal footrest, foam hip pads which can be removed.  
Note: including paddles

Specifications:

Length: 221cm

Width: 63cm

Weight: 15kg

Water Type: Flat, sea or white water

User Guide: Beginner - Advanced

Type: River Running / General Purpose

Max Load: 70kg

This is a classic freeride kayak designed with the smaller paddler in mind.

The Method Junior's forgiving nature and stability is ideal for beginners. Paddlers love the high performance and responsiveness provided by the combination of the freestyle hull with voluminous, flat deck and concave chine styling. The Method is a full-racer that is hard to row out.
