Sensata Technologies in Twente is recruiting for a Project Manager (PM) for our Heavy Vehicle and Off-Road business unit. You will work closely with an interdisciplinary project team on developing new products and implementing changes to existing products.

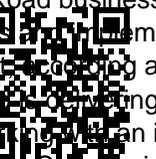

Sensata Technologies is wereldleider in de ontwikkeling van sensoren en elektrische beveiligingen voor de automotive en witgoed industrie. Zij beschikt over twee wereldwijd georiënteerde business units (Controls en Sensors), naast het Europese hoofdkantoor dat zich in Almelo bevindt, zijn er over de gehele wereld vestigingen voor ontwikkeling, verkoop en productie. Gemiddeld produceert Sensata meer dan 16.000 verschillende producten en verscheept meer dan één miljard eenheden per jaar. Deze onderdelen worden o.a. toegepast in de automotive, witgoed, vliegtuig, industriële, militaire, airconditioning en telecommunicatie sector. Sensata onderdelen voldoen aan de groeiende behoefte naar een wereld met meer veiligheid, betere energie-efficiëntie en een schoner milieu. ### Job Description

We are recruiting for a Project Manager (PM) for our Heavy Vehicle and Off-Road business unit. You will work closely with an interdisciplinary project team on developing new products and implementing changes to existing products. You will be working in a fast-paced environment serving automotive customers. You are required to have an excellent track record in managing and leading a team on the development of new products and on changes to existing products. Communication is key and you will be traveling to our customers, suppliers or production locations from time to time. We are looking for candidates to support our Product Management Team, who have experience in the Automotive Industry, a technical background, experience in project management and excellent communication skills.
