This MBP is mostly in good condition. There is a dent on the back of the screen which isn't covered under the warranty, but it's just cosmetic.

There are a couple other issues that aren't due to damage and Apple will fix them since it's still under the Apple Care guarantee (you can verify this on Apple's website). The Touchbar flashes brightly in the upper right corner; I cover that part with tape. The TAB key doesn't work and left CMD is unreliable. I have installed a program so CAPS LOCK acts like TAB to make it usable until you get it fixed.

Specs:

Model: Apple MacBook Pro 15-inch (A1707, 2016)
 CPU: Intel Core i7 2.7Ghz (4 cores)
