

# Tiptel 410-811 Telefooncentrale (50 EUR)

Locatie **Noord-Brabant, Aarle-Rixtel**  
<https://www.advertentiax.nl/x-963973-z>

De PBX-systemen tiptel 811 vormt een betrouwbare basis voor dagelijkse communicatie. De tiptel 811 wordt geconfigureerd via een webbrowser. Dit maakt ze ideaal voor Apple-, Windows- en Linux-gebruikers.

Huidige configuratie:

- 2 poorten voor ISDN (S0), extern / intern schakelbaar (meerdere apparaten of systeemaansluiting)
- 8 poorten voor analoge uitbreiding (FXS)
- 1 LAN-poort voor configuratie
- Slot voor analoge officiële module
- Slot voor VoIP-module (SIP)
- Slot voor VCM

|                                                                                                                                                                                                                                         |                                                                                                                                                                                                                                          |                                                                                                                                                                                                                                          |                                                                                                                                                                                                                                          |                                                                                                                                                                                                                                           |                                                                                                                                                                                                                                            |                                                                                                                                                                                                                                            |                                                                                                                                                                                                                                            |                                                                                                                                                                                                                                            |                                                                                                                                                                                                                                            |
