The one kite that does it all – any rider, any style, any condition.

The Park's three-strut design and Swept Compact C outline results in a very stable and responsive kite. The powerful profile and leading edge give the rider good low-end power and consistent pull over a wide range of wind speeds.

The Park uses just enough sweep to maximize depower and allow for easy relaunch. The Swept Compact C platform remains very close to a real C-shape in order to provide the crispness and feel in the bar that you really need.

Designed with fun in mind, the Park provides the rider with the power to boost, the handling to hit the lip with style and the ability to feel good in any condition.
