## Functiebeschrijving

You will develop the front end with which users can access and understand the data gathered, like smart and easy to use dashboards. Simple as that. But it takes a smart, experienced developer to understand that sometimes the simplest looking solutions require the most intricate developing....

This is a highly autonomous role which requires some entrepreneurial spirit, sense of responsibility, ability to work independently and most of all, a good understanding of user experience.

## Functie-eisen

- At least 4-5 years front end development experience
- EU/EFTA country nationality. We can not consider candidates from outside the EU/EFTA region. If you need a work permit, it's unfortunately not useful to apply.
- Front-end java scripting, Angular JS (2+) being a must-have, anything else is a nice bonus, like: Node, Docker, Kubernetes, Java
- Experience with Ionic is considered a strong +
- Experience with Firebase (backend) is considered a strong +
- Experience with SOAP en REST and Design Patterns (security & scalability of web apps)
- Scrum / Agile
- You are a team player, communicative and pro-active, curious and entrepreneurial.
- Fluency in English
