

## Game monitor 27 G-Master GE2788HS

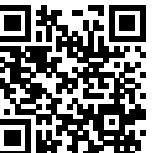

Locatie **Noord-Brabant, Breda**  
<https://www.advertentiax.nl/x-978561-z>

Game monitor G-Master GE2788HS  
 De 27" G-MASTER GE2788HS, ook bekend als BLACK HAWK, biedt veeleisende gamers het absolute voordeel bij het nemen van doorslaggevend split-second beslissingen. Met een zinderende 1 ms reactietijd voor ultra vloeiende overgangen zonder ghosting. De helderheid in donkere scènes wordt met de Black Tuner instelling eenvoudig aangepast. Hierdoor kunnen vijanden sneller worden gespot!

Verder beschikt het scherm over drie signaalgangen (VGA/DVI/HDMI), een hoofdtelefoon-aansluiting en ingebouwde speakers. De GE2788HS G-MASTER is het ideale scherm voor veeleisende gamers. Dankzij de HDMI-aansluiting en ingebouwde speakers, kun je deze monitor ook gebruiken met een console. De monitor biedt ook ondersteuning voor AMD FreeSync

Aansluitingen:  
 VGA  
 DVI-D  
 HDMI  
 Audio-ingang  
 Koptelefoon-aansluiting  
 Schermgrootte: 27 inch  
 Schermresolutie: 1920 x 1080 pixels  
 Type paneel: TN

|                                                                                                                                                                                                                                    |                                                                                                                                                                                                                                     |                                                                                                                                                                                                                                     |                                                                                                                                                                                                                                     |                                                                                                                                                                                                                                      |                                                                                                                                                                                                                                       |                                                                                                                                                                                                                                       |                                                                                                                                                                                                                                       |                                                                                                                                                                                                                                       |                                                                                                                                                                                                                                       |
